

ARGA Meeting 16/11/2023

Attended:

Anna Petts, Leah Lynham, John Keeling, Owen Missen

Apologies: Juraj Farkas, Ian Roach, Nadir De Souza Kovaks, Savannah McGuirk, Anthony Dossetto

After catching up and general introductions the following was discussed:

- Webinar for December has been sorted- Kathleen Vowles. Done through EventBrite. Currently members and non members can attend for free but we're going to investigate charging non members to attend future webinars to generate revenue. \$10 seems reasonable. Webinars will be recorded to upload to the YouTube channel (Nadir to look after the You Tube)
- Anna will contact Amber Jarrett to discuss GSA support for IGES. Can ARGA have a presence at this conference? To be held in Adelaide.
-
- We'll produce a short ARGA Christmas Newsletter/email to be sent to members. All Committee to contribute, Nadir to compose and Leah to distribute
- Investigating a redbubble or similar store with invite code for ARGA/ARGANauts merchandise- We'll investigate a graphic designer or similar to provide a couple of design options
- We should arrange an ARGA excursion for next year. Hallet Cove was discussed
- ARGA Will now have a presence on Blue Sky and the Twitter Account will be permanently closed. Leah
- We are in agreement on submitting a thematic regolith issue for AJES. It will be online only and the aim will be for it to be fully open access and published 2025/2026. Anna will draft an email to find editors and call for papers. We discussed potential editors and will use our membership list to investigate further.
- We now have 67 members, so our reach and growth is steadily increasing.
